Kentucky STOCK FARM

(BLUE GRASS)

FOR SALE OR LEASE.

I will sell, or lease for a term of years, MEL-ROSE STOCK FARM, the home of the late W. T. Dudley, situated within one mile of Frankfort, Ky., on the Lexington turnpike, and L. and N. Railroad, containing 265 acres, which may be divided into two tracts, one containing 185 acres, with the residence and improvements, and the other 100 acres with one tenement house.

The soil is rich, producing large yields of tobacco, wheat, corn, etc., and there are five never-failing springs of limestone water on the place. The residence is of brick, with ten rooms, located on a commanding eminence and surrounded by forest trees. Improvements include two large stables, two large tobacco barns and other farm buildings all in perfect repair, and a fine orchard of best fruits, now in full bearing. An excellent half-mile track may be made on the place.

This farm has all the requisites for a first-class stock farm, offering special advantages for raising and training horses, the greater part of it being now well set in blue grass. Will take \$20,000 for the whole place, one-quarter cash, balance in one, two and three years, with interest, or will lease for five years at \$2,000 per year.

For further particulars address FRANK CHINN, Attorney, Frankfort, Ky.

General Land Office.

Annual Report of the Acting Commissioner.

SUBMITTED TO SECRETARY NOBLE

A Number of Suggestions and Recommendations Made By Commissioner Stone—More Help in the Office Will Be Asked For—Other Dispatches from Washington.

WASHINGTON, Sept. 20.—The annual report of the acting commissioner of the general land office, William M. Stone, has been submitted to the secretary of the interior. In opening his report Commissioner Stone refers to the accumulation of business in the office, which had been left over from former administrations and which was partly due to the increasing work of the local land offices.

The system in force, he says, was not promotive of the speedy dispatch of business, especially in the case of the board of review created by Commissioner Sparks, which he abolished as a hindrance to good, safe and quick work in the office. "But said board of review," says the report, "did answer what would appear to have been a specific and defined purpose, namely, that of greatly hindering the determination of cases, causing their indefinite pendency in the general land office."

Commenting on Mr. Sparks' "unfortunate and unwarranted suspicions that a widespread system of fraud prevailed" and Mr. Sparks' assertion that "the proportion of fraudulent filings to the total number of filings made and relinquished may be estimated in round numbers at 100 per cent," Mr. Stone says: "This wholesale arraignment of claimants on the public domain should not have been made without the most conclusive evidence to sustain it."

The report goes on to say that no general misconduct on the part of the western settlers has been found. During the year 70,141 agricultural patents were issued, covering 11,791,119 acres of land, an increase over the preceding year of more than 3,000,000 acres. Mineral patents to the number of 913, covering an acreage of 17,096 were issued. There were patented for railroads under the law 425,046 acres and under the swamp land grants to the states 259,721 acres. State selections under educational grants were approved to the extent of 132,350 acres and lands to Indians patented under various acts to the amount of 159,390. The total cash receipts of the office from sales of land and fees were \$5,270,225, a decrease of more than \$3,000,000 as compared with the previous year. During the year surveys were accepted to the amount of 4,387 acres, principally in Dakota, Montana and New Mexico.

In his report Commissioner Stone calls attention to "certain allowances made to deputy surveyors by the first comptroller of the treasury in the years 1886 and 1887, which, in my opinion, were grossly irregular, and a palpable usurpation of the powers and duties specially belonging to the commissioner of the general land office." The conditions under which these vouchers were issued were fully explained in the United Press dispatches a few weeks ago.

Commissioner Stone discussed at length the question of jurisdiction, and concludes that the first comptroller in considering the balance of special deposits amounting to \$500,000, available for the payment of any balance due deputy surveyors was guilty of a clear violation of law, and overruled all previous practice of the two offices.

The report refers to the unsettled condition of private land claims in New Mexico and Arizona and the urgent need of congressional action to settle titles in these territories. Referring to the act of March 3, 1887, which authorizes the secretary of the interior to adjust each of the railroad grants, and if any have been erroneously certified or patented to commence proceedings to cancel them, the report states that of pending selections 31,660,846 acres have been suspended awaiting action by congress.

Attention is called to the fact that more than 50,000,000 acres of land have been claimed under the swamp land act in the various states, Florida alone, while having a total area of but 37,911,520 acres, having lists filed for 37,221,469 acres as swamp lands. "There can be no doubt," says the report, "that large quantities of land amounting to millions of acres have been patented to the state erroneously as swamp lands; in fact they were and are good agricultural lands."

The work of examining ex-parte mineral entries is said to be two and a half years in arrears. The report recommends that when a homestead or pre-emption claimant receives a patent and mineral is discovered subsequently on his claim, his certificate of entry is all act as a bar to any mining claim upon a discovery made subsequent to the entry.

The report recommends the repeal of all laws relating to public timber and the enactment of a general law, plain, concise and unmistakable in meaning. Fewer fraudulent entries have been made during the year than for many years past, owing to increased vigilance, but several cases are mentioned in the report where syndicates sought to obtain coal lands by fraudulent means, and in one case, had they succeeded, the commission alone would have amounted to \$550,000. The opening of Oklahoma is referred to as the most important event for several years in the administration of the land office.

Congress is asked to provide fifteen new clerks to preserve the records of land titles in the office books.

Twenty-Two Vessels Wrecked.

WASHINGTON, Sept. 20.—The surgeon in charge of the Marine hospital at Lewes, Del., writes that there are twenty-two vessels wrecked or stranded on the coast in that neighborhood, and laboring men of every trade and calling are reaping a harvest in wrecking these vessels. A number of sick or injured seamen taken from these wrecked vessels are now in the hospital.

Yellow-Fly Shipwreck.

WASHINGTON, Sept. 20.—A letter dated September 12 has been received at the marine hospital bureau here from the sanitary inspector at Havana, Cuba. The inspector says that the British bar, Jane Law, which cleared for New York on the 7th inst., took a bill of health in which it is stated that all her crew were well except the mate who was convalescing from an attack of yellow fever. On the day the crew mutinied and the vessel remained in the harbor until the 12th. The inspector says "that on making his second inspection he found that one of the sailors was sick and showed symptoms of yellow fever, and he so stated in his bill of health. The vessel proceeded to sea with the sick man on board."

The Secretary Joins the President.

WASHINGTON, Sept. 20.—Private Secretary Halford, accompanied by Mrs. Halford and Miss Minnie Wanaamaker, left Washington at 11:20 o'clock yesterday for the Baltimore and Ohio railroad for Deer Park. Mr. Halford's health is almost restored.

THE CRONIN CASE.

The Work of Selecting a Jury About One-Half Accomplished.

CHICAGO, Sept. 20.—The work of selecting a jury in the Cronin case was resumed at 10 o'clock. The first proceeding was the examination by the state of the four jurors held over night, and Juror Spruell was dismissed on a peremptory challenge. The state's attorney examined E. H. Ingram, a printer, and then tendered Church, Patterson, Boggessen and Ingram to the defense. Boggessen was found by Mr. Forrest to have a prejudice against the accused and was challenged for cause. Church, Patterson and Ingram also acknowledged having prejudices or an opinion and were also excused. With these men disposed of, Mr. Forrest tried to find four men to take their places. The defense then, after examining nine talesmen, five of whom were excused for cause, accepted four—Reese, Shafer, Kohaus and Lowe—and tendered them to the state.

The state's attorney's examination resulted in Mr. Lowe being excused for being opposed to capital punishment. Shafer and Kohaus were excused because they would not inflict the death penalty on circumstantial evidence. Reese was accepted temporarily by the state. The work of examining talesmen was then resumed by the state.

In the afternoon the state tendered Messrs. Southward, Blount, Bowman and Raymond to the defense. Bowman was passed temporarily, and Southward excused for cause, when the court adjourned.

FIRE IN KANSAS CITY.

Two Men Fatally Injured and a Fire Chief Slightly Hurt.

KANSAS CITY, Mo., Sept. 20.—Fire last night entirely destroyed the Kansas City Dyeing and Refining works at Kansas City, Kan. Loss, \$75,000; insurance, \$44,000. During the progress of the fire Joe Estinburger, an employee, jumped from a second story window, and John Halpeen jumped from the roof. Both sustained fatal injuries.

The Kansas City, Mo., fire department was summoned to aid in preventing the fire from spreading. While Chief Hale, of the Kansas City, Mo., fire department, was directing his men from the roof some carelessly removed a ladder, and when he found it necessary to descend, he was compelled to slide down the hose. When about half way down the hose broke in two at the roof where it had been melted by the flames, and Hale fell a distance of fifteen feet to the ground. He was but slightly injured. Chief Gill, of the Kansas City, Kan., fire department, was thrown from his horse and badly bruised.

Two Children Burned to Death.

OAKLAND, Md., Sept. 20.—Information has just reached here of the burning yesterday, of the house of Mrs. A. Senbower, two and a half miles from Deer Park. The two children of Mrs. Senbower, aged 3 and 6 years, respectively, were burned to death. Mrs. Senbower was visiting the residence of her father at the time of the fire, and left the children at home.

A Ten-Fold Heavy-Weight Fight.

JOHNSTOWN, N. Y., Sept. 20.—Arthur O. Uppman, heavy-weight champion of Connecticut, and Frank Bosworth, of New Jersey, fought for \$500 a side, Marquis of Queensberry rules, last night, just over the Hamilton county line. In the tenth round Bosworth was knocked out.

Storm Along Massachusetts Coast.

HIGHLAND LIGHT, Mass., Sept. 20.—A heavy northwest gale, with rain, has prevailed for several hours. Fishing boats have had a bad time. One life was lost. A truro, and there were many narrow escapes. Wers are probably badly damaged.

Six Children at One Birth.

SALT LAKE CITY, Utah, Sept. 20.—Mrs. Hiram Snell, of Malad, Idaho, has given birth to three boys and three girls, weighing altogether eight pounds, and all bright and lively.

A Bonus for Good Ball Playing.

BOSTON, Sept. 20.—The Globe announces that it will present \$1,000, to be divided among the members of the Boston base ball club, if they win the pennant this year.

Rioting on Navassa.

A Guano Island the Scene of Bloodshed.

SEVERAL AMERICANS KILLED.

The United States Steamship Galena Ordered to the Scene of the Trouble—A British War Vessel Already Dispatched to the Island.

WASHINGTON, Sept. 20.—A cable dispatch was received at the state department yesterday from Consul Allen, at Kingston, Jamaica, stating that a riot had occurred at Navassa, in which a number of Americans were killed. At the request of the consul a British warship left Jamaica immediately for the scene of the difficulty. The dispatch contained no particulars.

The state department immediately informed Secretary Tracy of the occurrence, and the latter cabled to St. Nicholas Mole, Hayti, the cable terminus, for the United States steamship Galena, which is cruising in those waters, to repair immediately to Navassa. Admiral Gherardi is on the Galena. Navassa is a guano island owned by Gen. B. F. Butler and an American company. It is about 250 miles from Kingston. Though under no particular jurisdiction it is looked upon as being under the protection of the United States, and is inhabited chiefly by Americans.

Know Nothing of It in Baltimore.

BALTIMORE, Sept. 20.—With regard to the reported riot on Navassa island, the Navassa Phosphate company, of this city, which owns the island, state that they had received dispatch from a sea captain, in which he referred to a "revolution" on the island, without giving any details. Yesterday they received another cablegram, via Engant, which contains no reference to the revolution. The latest mail advices is a letter dated Sept. 10. It does not give any intimation of trouble.

TWO LIVES SNUFFED OUT.

A Murder and Suicide at Windsor, Ontario.

WINDSOR, Ont., Sept. 20.—About 11 o'clock yesterday morning a man and woman were found dead in Dongall's nursery, where they had been seen sitting two hours previously. The woman was shot through the heart, and the man had a gaping bullet hole in his forehead from which blood was oozing.

Papers on his person showed him to be Silas Densmore, of Rushville, Ind. The woman was probably his wife. A revolver with two chambers empty was found near the corpses. The grass in the vicinity appeared as if some one had taken hold of it with both hands and pulled it convulsively, but no other traces of a struggle of any sort were found. The clothes of the dead people contained only three cents in money and a few unimportant papers. The man was apparently 27 years old and the woman about 20 years old.

I. O. O. F.

Patriarchs Militant Prize Drilling, Daughters of Rebecca.

COLUMBUS, O., Sept. 20.—The prize drills of the Patriarchs Militant took place at the state fair grounds yesterday. The following Cantons, each represented by twenty-four swords, participated in the contest: Canton Frank, No. 55, of Germantown, O.; Canton Indianapolis, No. 2, of Indianapolis, Ind.; Canton Alpine, No. 22, of Bowling Green, O.; Canton Logansport, No. 1, of Logansport, Ind.; Canton Ottawa, No. 60, of Port Clinton, O.; Canton Marion, No. 6, of Marion, Ind.; Canton Wichita, No. 5, of Wichita, Kan. The awards were not announced.

The Daughters of Rebecca completed their constitution, and their organization will hereafter be known as the National Convention of the Daughters of Rebecca, I. O. O. F.

A Circus Train Wrecked.

DES MOINES, Iowa, Sept. 20.—As the circus train of Forepaugh's show was on the way from Marshalltown to Oskaloosa yesterday, a serious accident occurred near Searsboro. The train carrying the most expensive baggage broke while going down a long grade on the Iowa Central road, and the engineer seeing the trouble stopped the engine. A collision resulted, in which two cars were telescoped and the cages containing lions and one other animal and a handsome float were smashed to pieces. The animals were unhurt and did not get away, but one canvasman had his arm broken, and another had four ribs crushed. Forepaugh estimates his loss at \$20,000.

No More Relief Expected.

WILLIAMSPORT, Pa., Sept. 20.—Governor Beaver has written a lengthy letter to Mayor Foreman in which he declines to appoint a representative from the West Branch valley on the state flood commission to fill the vacancy caused by the death of Judge Cummin, which was petitioned by a large number of our influential citizens recently. The governor stated that it would now be inexpedient to appoint a new man inasmuch as the labors of the committee are very nearly finished. This part of the state will therefore receive no more financial help from the balance of money now at the disposal of the commission.

A Negro Shoots a White Man.

ATLANTA, Ga., Sept. 19.—Three miles from Rutledge yesterday John Egan, colored, went into the yard of Miles Fambrough, white, and when ordered away he shot and killed Fambrough. The negro escaped.

AN AVALANCHE OF ROCKS.

Fifty People Crushed to Death and Many Others Injured.

QUEBEC, Sept. 20.—Last night a large portion of Cape Diamond, below the citadel, became detached and sliding down, buried a number of houses beneath a mass of rock and dirt. A number of dead bodies have been taken from the ruins, but the total loss of life is not known. A number of persons, more or less injured, were quickly rescued. It will be hours before any comprehensive idea of the number of the dead can be arrived at, as some of the houses are under twenty-five feet of debris.

At the foot of the cliff is a narrow street which occupies all of the space between the cape and the river. Along the river side of this street was situated the houses which were crushed by the terrible avalanche of rock.

In May, 1841, a similar landslide occurred, which destroyed several buildings and killed thirty-two people. From present indications it is feared the loss of life by this landslide will be equally as great.

In 1852 another slide caused the death of several persons, about a half mile from the scene of the present disaster.

The street is entirely filled with the wreckage, and a large force of men are at work clearing it away. Several families are known to have been entombed, and it is feared that all are dead.

Up to 11:30 o'clock six bodies had been taken from the ruins—Thomas Farrell and two of his children, also two children named Burke, and one unknown child. Farrell's mother-in-law, Mrs. Allen, and her husband are still in the ruins.

About twenty-five persons have been removed from the debris very badly injured. Some have broken arms and legs, others badly crushed and mutilated.

It is now estimated that at least fifty persons are yet under the ruins. The fire brigade and police force are on the ground rendering valuable assistance. All the injured were removed to the marine and fisheries departments, where medical men and clergymen looked after them.

The debris covers the road in a solid mass for over 300 feet in length, and from fifteen to twenty-five feet in height.

It is impossible to say at present how many are dead and wounded. Every one is working heroically. Cries of "Help! help!" are heard from beneath the debris, but none can be given.

The body of a woman named Mrs. Berrigan has just been pulled out of the debris. Tons of rocks are falling, and it is feared the whole boulder forming the highest point of Quebec will give way.

Thirteen dead and sixteen badly injured have been taken out so far. It will take several days to recover all. The damage will exceed \$100,000. Officers of the royal school with a large force of cavalry are coming to aid in rescuing the injured. Six hundred men are now at work. The blood and dust make a sickening spectacle.

ELOPED WITH A PRINCESS.

A Chicago Man Skips Out with a Relative of King Malietoa.

MINNEAPOLIS, Minn., Sept. 20.—Monday morning a company of natives of the Samoan islands opened an engagement at the dime museum. The party consisted of nine men, one woman and one child. The woman was comely looking, about 22 or 23 years of age, and claimed to be related to King Malietoa, of the Samoan islands. She gave it out that she was a princess of the royal line, and that her name was Silantia. At the time the king was deposed by the Germans she left for San Francisco to be educated.

There she remained until about three weeks ago, when she was engaged by an agent to go with some other natives on an exhibition tour through the country. Soon afterward she opened in Chicago. While there an American by the name of J. S. Cotterell, fell violently in love with her, followed her to this city and yesterday eloped with her. They are supposed to have gone to San Francisco as she has been desirous of returning to her native land since Malietoa is again in authority.

Suffrage in Wyoming.

CHEYENNE, Wyo., T., Sept. 20.—The statehood convention yesterday adopted as part of the constitution a suffrage chapter. Female citizens are to vote. The severest qualifications are requirements that all electors shall be able to read English, shall be full-fledged citizens, and have had six months residence in Wyoming. Each stipulation was opposed vigorously by a couple of corporation attorneys. Ballots to contain the names of all candidates will be issued by state officers. The provisions will disfranchise a large number of coal miners, who have for years voted in bulk.

used the Mail to Defraud.

WILLIAMSPORT, Pa., Sept. 20.—Seymour Hitchcock, the Meadville man, who with his wife, concocted a scheme to swindle western farmers by attempting matrimonial bait, was convicted here yesterday afternoon in the United States court, of using the mails to defraud. His wife was acquitted.

Miners' Mass Meeting.

WILKESBARRE, Pa., Sept. 20.—The miners' mass meeting at Nanticoke last night was largely attended. Addresses were made by T. V. Powderly, L. M. Barry and others. Another mass meeting will be held in this city to-morrow night.

Snow in New Hampshire.

CRAWFORD HOUSE, N. H., Sept. 20.—Several inches of snow has fallen on Mount Washington, and the summits near here are also covered. It has rained here since yesterday, and the barometer fell sharply last night.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTH, Proprietors.

FRIDAY, SEPT. 20, 1889.

SECRETARY TRACY doesn't seem to be one of those hidebound Republicans who rarely ever see anything praiseworthy in what a Democrat does. The New York Star says: "Tracy displayed an admirable spirit in his dispatch congratulating ex-Secretary Whitney on the magnificent performance of the Baltimore, which was designed and chiefly built during Mr. Whitney's administration of the Navy Department."

THE New Orleans Times-Democrat prints its annual review, showing the progress made by the Southern States in the past decade. The assessed valuation of all property in Kentucky for the years 1879 and 1889 are given below:

1889, \$565,458,250
1879, 318,037,775

Increase, \$247,420,475
This wonderful increase is due to a considerable extent to the new revenue law which requires property to be assessed at something near its full value.

In speaking of Kentucky's schools the Courier-Journal says: "The foundation is finished. Now our people must use their energies in awakening local interest in education; in improving our methods, in advancing our standards, thus bringing within reach of every child in the State a good common school education." To which we will add: Let the State fund be supplemented by local taxation. Why not have Mason County take the lead in the move? District taxation won't do. A county fund is the thing to supplement the State fund.

ACTING COMMISSIONER SMITH, who now has charge of the Pension office, has reversed two of Mr. Tanner's orders. One of these rulings required all local examining boards, upon application of pensioners receiving a less rate than \$4 per month, to examine them for re-rating. Another of Tanner's rulings, which the present Acting Commissioner has reversed, was that the evidence of one reputable private soldier would be regarded as sufficient to establish the cause of disability of a comrade. The practice had been to require the evidence of one commissioned officer or two private soldiers. It will no doubt make the Little Corporal furious to see his orders knocked out after this style, and especially by Smith, who is charged re-rated his own claim and stuck about \$6,000 down in his pocket, thereby.

THE Harrisburg (Pa.) Patriot asserts that "in Pennsylvania, one of the best of farming States, the value of farm lands has depreciated \$68,000,000 in the last twenty years," and the Patriot accounts for it in this way: "The farmer, who had all markets, was hoodwinked by the manufacturer and mineral land owner to pay tribute to them in the shape of a tariff tax on all he purchased, in consideration of the promise of a home market, which has at all times been in his sole and undisputed possession. Not since the awful day when Satan, taking Christ upon a high mount, and there promising all the earth as a price for His adoration of evil, has there been made a more empty promise to give what was not one's own, than that made by the tariff-fed manufacturer to the tax-ridden farmer, when he offered to him the home market. Upon the backs of the farmers taxes upon taxes have been heaped Olympus high, until their tops make the Ossa of legitimate taxation like a wart."

The Ladies Delighted.

The pleasant effect, and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions, make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

OUR NEIGHBORS.

HELENA.

W. E. Fields is home from Cincinnati. Mrs. Amanda Rice is visiting relatives near Fern Lea.

Wm. Luttrell and family visited relatives near Orangeburg Wednesday.

Miss Lizzie and Susan Palmer are visiting relatives in Elizaville.

Mr. Rich Hopper, one of Mayall's merchants, paid us a pleasant visit Thursday.

Mrs. Alice Cook and sister, Miss Belle Keith left on the K. C. Thursday morning, for a protracted visit with relatives near Frankfort, Ky.

MINERNA.

Miss Isabel Sidwell, who has been very sick for several weeks past, is convalescent.

Mrs. S. W. Dotson is quite sick with fever.

Mrs. Lizzie Wood, of Maysville, was visiting Mrs. K. L. Wilson several days this week.

Dr. S. E. Bellitt is having a new office erected near his new home—the residence of Geo. F. Winter.

Miss Fannie Brodrick, of Maysville, who was the guest of Miss Lucy Proctor for some time, has returned home.

Mrs. Alice Forsythe is recovering from a case of malarial fever.

Mr. W. A. Blair, of Chilesburg, Fayette County, is visiting friends in Minerva and will remain until after the Germantown fair. Mr. Blair moved from this place about three years ago, and his many friends are glad to see him back again.

JOBGING DRY GOODS HOUSE.

"Ben Adhem" Comments on Maysville's Present and Future, and Throws in Some Suggestions.

With proper deference to those who, not long since, undertook to "boom" our city on the "manufactures" theory, and who no doubt thought they were building wisely and well, yet does it not occur to you, after looking over the dry, cold, yet unerring statistics of the manufacturing interests, that the flat of the stern law of supply and demand is, that "manufactures" are overdone in this country?

I am of opinion that some thought and a little research will establish the truth of this, and bring the conclusion that the time is not yet to boom our city on this theory, nor will it be until the ratio of demand to supply is greater than it now is.

Permit me to suggest, however, for what it may be worth, that I believe there is a way by which a boom may be begun, and once begun, may leave the spirit of the movement so that a full-fledged boom may, slowly—possibly—but substantially follow, and a decade hence see our city materially more prosperous.

If ever there was a time for action and "speaking-out," it is now. * * * When our traveling men go out in search of trade, in the territory properly belonging to us and say to the country merchant: "Why do you not come to Maysville for your stocks?" the merchant at once replies:

"I would do so if you would permit me. I would prefer it. The leading feature of my business is dry goods—(this refers to a majority of country merchants)—other lines which you represent being necessary in their ratio, and you keep no full stocks of dry goods in Maysville, so that I can not depend upon you in that line for my supplies. Therefore, I am forced to Cincinnati, or elsewhere, for my dry goods, and consequently for all other lines, because I cannot afford to buy part of my stock in one place and part in another; the expense, in money and time, is too great, so I make 'one bite of the cherry.' It would suit me much better to buy all my goods in Maysville, because, ordinarily, freights are lower; then, add the very desirable feature of being able to replenish from there at convenience at any time on small orders to keep up my stock, by which means I would not be compelled to buy so largely at one time as I am now forced to do. In other words, I would be able to do business on a somewhat smaller capital if you would let me be your customer. Yes, I would greatly prefer Maysville as a market, but your people seem to have lost snap. At one time your place supported a jobbing dry goods house, second to few in the West. But now, 'how are the mighty fallen,' * * * Other live markets are day by day taking the bread out of your mouths, and I must say that at the present rate it will not be long until your city will have only a small local business derived from her people immediately adjacent. You must 'shoot or give up the gun.'"

Now, there is a plain statement of facts. * * * No seer ever divined more truthfully than when the merchant repeated the old saying, "you must shoot or give up the gun." We must work if we would win, or stand idly aside and see other energy and other hands come and take that which is ours for the gathering.

Now, though perhaps crudely put, this is the idea I would suggest as the initial step toward a solid and permanent boom. Establish an exclusive jobbing dry goods and notion house, from which the country merchant may at all times supply himself with a complete stock. Let the capital be, say, one hundred thousand dollars, (\$100,000), paid up. Buy for cash and get the benefit of all the discounts cash will command. By this system such a house can compete with the houses of any other market with which it may be brought into contact.

In order to raise the capital, form a stock company. The business men of the city of all hues should, as a matter of protection and betterment, take it up and lose no time—taking stock liberally themselves and getting others to do so. It will pay as an investment. Such a house, at two years from beginning, ought to do an annual business of from \$300,000 to \$400,000, paying a net dividend of from 10 to 15 per cent.

After the capital has been paid in, organize with a board of directors composed of live men—neither cranks nor mossbacks—who shall select a board of management composed of say, a President, a Superintendent and a Secretary and Treasurer, or both, attaching thereto the duty of "credit man." Then, it would be necessary to have a book-keeper, and say three or four active salesmen to travel in the territory prescribed. This to begin with. Let push and sagacious energy characterize every department and success and prosperity will follow, not only the enterprise itself, but every other line, and begot more, ending, who can tell where? We have material in the city from which to select a capable and wise management.

It has been the writer's motive to try to arouse interest in our general welfare and material prosperity only. It has impressed him as a sure way—though there may be others—to a prosperous end. In such matters, the law of the "survival of the fittest" applies. If we would achieve success we must prove ourselves fit to deserve it by earning it. We must fight or surrender, "shoot or give up the gun." Who has the patriotism to move?

BEN ADHEM.

The ladies are reminded that our stock of fall and winter millinery now on display is complete and the most elegant ever brought to this city.

s19d4t MISSES NILAND.

MR. A. J. McDougale has leased the late postoffice site on Sutton street and will open out a full line of dry goods and notions at an early day. Workmen are engaged fitting up the rooms. Mr. McDougale is an experienced hand in that line of business, and his patrons will no doubt be glad to learn that he is to re-enter the trade.

Small capotes are of straw guipure or of gold-colored Tosca tulle, trimmed with delicate wreaths of flowers and foliage.

A feature of many stylish redingote costumes to be worn during the fall is a handsome Louis XIV vest of embroidered crepe de chine, cut to fall low and broad below the waist.

DOVER came near having a "race riot" the other night, the result of the disgraceful and disorderly conduct of several drunken negroes. The Marshal arrested two, but the others escaped. Knives and pistols were drawn and "razzers" flashed. Several of the latter weapons were found on the streets the next morning.

THE EUROPEAN HOTEL

Leased to the Rosenau Bros., of the "Bee Hive"—To Be Converted Into a Dry Goods House.

The European Hotel will soon be a thing of the past.

It has been leased to the Rosenau Bros., proprietors of the "Bee Hive," and will soon be converted into a dry goods establishment.

Since the death of the late John Heiser, who erected the building, it has not proved a profitable investment as a hotel property. A year or so ago it was leased to Mr. C. D. Shepard, but he retired at the end of several months, and his sureties, Messrs. J. Wesley Lee and George Ort, have since had charge of it. The lease will expire on the first of October.

The Oddfellows' Real Estate Committee has been casting about for a new tenant for some time. No one seemed anxious to lease the property as a hotel. The most favorable proposition was from the Rosenau Bros., who were anxious to secure it and convert it into a dry goods establishment. Their proposition was presented to Ringgold Lodge Wednesday night, and accepted. This was followed by similar action on the part of DeKalb Lodge at a called meeting last night, and the matter is now settled.

Rosenau Bros.' lease is for five years, with the privilege of ten, at \$1,000 per annum. Extensive alterations are to be made, all of which are to be paid for by the lessees, except as to the painting of the front and the putting in of some iron pillars and other supports. The lower floor will be thrown into one large room, by taking out the barber shop and all partitions and moving the front and back stairways to the west side of the building. Four large show-windows will be put in, leaving two entrances, and the room will be fitted up very handsomely throughout, with a large circular counter in the center, making it one of the most elegant storehouses in town. Most of the second and third floors will be rented out for offices and sleeping rooms.

The hotel was erected by the late John Heiser in 1878. The Oddfellows owned the ground and at the expiration of Mr. Heiser's lease, in 1888, they bought the building. A more elegant and more substantial structure will likely be erected in place of the present building at the expiration of the Messrs. Rosenau's lease.

Last of the Season.

The most successful excursions this season have been the two personally conducted limited excursions over the C. & O. Railroad. They have added greatly to the wide popularity of that beautiful line. The last of the series leaves Cincinnati September 24. It will not be a crowded, uncomfortable journey, but an ideal pleasure tour through the most picturesque and historically interesting regions of America. A superb special train, vestibuled from end to end, will leave Cincinnati at 8:15 a. m., reach White Sulphur Springs the first night; Natural Bridge the next afternoon; Richmond the day following, and Old Point Comfort the third evening. The tourists will see all interesting points en route, and will be driven in carriages through Richmond. The trip is made entirely by daylight. Round trip tickets, including every item of expense on the going trip, and good returning for fifteen days, \$21.50.

The descriptive matter will interest you. Call at C. & O. ticket office, southwest corner Fifth and Walnut streets, or address, H. W. FULLER, G. P. A., Cincinnati, O.

The New "Magnolia" Mills Doing a Big Business.

One of the industries of this city that very few know the magnitude of is the new flour mill operated by Carr & Tolle, on Fourth street. It was recently completed and is supplied with full roller process. The capacity is fifty barrels every twenty-four hours. The mill is operated outside of the millers' trust. It is running night and day and the firm are now behind with their orders. Their best brands of flour are the "Magnolia" and "Blue Grass." So far this season, they have purchased 35,000 bushels of wheat. Their trade is increasing and from present indications they will have to enlarge the capacity of their mill before another season.

County Court Doings.

On motion of County Assessor John R. Burgess, William Hitt was appointed Assistant Assessor and took the oath of office.

A report of the estate of Edna Linn Bendel and Regina F. Bendel was filed and ordered recorded.

MR. J. FLETCHER MARCUM, associate editor of the Kentucky Democrat of Catlettsburg, is a candidate for Sergeant-at-Arms of the next State Senate. "Fletch" is an excellent fellow, handsome, affable, and capable of filling any position in the gift of the Senate. While regretting to see him wandering off into other fields, we hope he will meet with success in the present race.

THE ONE PRICE SYSTEM

Ever since the beginning of MINER'S SHOE STORE. Over fifty years ago, the One Price principle has been strictly adhered to. It is one of the bright features of our business. That it is the fairest, squarest and most satisfactory in all respects, every buyer will admit.

Another thing in this connection: Where one price is the rule, of necessity it means the very lowest cash price; the two are inseparably connected. Think this over and see if the statement is not correct. As a measure of good faith, we mark everything in plain figures, that "He who runs may read."

Railway News.

Over 23,200 cars arrived at and departed from Indianapolis the past week.

The Chesapeake and Ohio Railway Company has purchased sixteen new vestibule cars and thirty new large locomotives.

One by one the great railroad magnates of the country are concentrating their forces South, realizing that here is to be the theater of the world's greatest activity in railroad development, and here is to be created the most enormous volume of traffic which has ever been handled in America, and ultimately the greatest handled in the world; for no imagination can picture the possibilities of the mountain and Piedmont section which stretches through Virginia, the Carolinas, Kentucky, Tennessee and Georgia into Alabama.—Baltimore Manufacturers' Record.

The Post, of Washington City, says: "There is no mistaking the great executive ability and progressive public spirit of Mr. M. E. Ingalls, the President of the C. and O. Everybody who goes over the road since it came under his management, especially on the 'Fast Flying Virginian' from Cincinnati to Washington, is impressed at once with the excellence of its appointments and the perfection of its system. Nothing seems to be left undone for the comfort and convenience of passengers. Not only is the 'deadly stove' abolished, but even the kerosene lamp has become a thing of the past and the traveler by night who desires to while away the time in reading is supplied with an electric light all to himself. Everything about the train is in the same order of advanced improvement. Mr. Ingalls is determined to be outdone by no competitor, and expects to reduce the safety of railroad travel to an exact science."

Here and There

Catholics and Orangemen Arranged Against Each Other.

A BLOODY OUTBREAK FEARED.

The Town of Dungannon, County Tyrone, Ireland, in a Perfect Frenzy of Excitement Over a Political Controversy.

LONDON, Sept. 20.—The little town of Dungannon, County Tyrone, Ireland, is in a perfect frenzy of excitement, and every man, woman and child in the place is ranged on one side or the other of a heated political controversy, in which, too, nearly the whole surrounding country seems disposed to take a hand.

Nearly a week ago a number of English Liberals, who are traveling through Ireland with the view of studying the Home Rule question on the native soil, interested themselves to organize in Dungannon a public meeting in the interests of Home Rule, the date of which was fixed for last night. For nearly a whole week the fact that such a meeting was to be held was well known to everybody in County Roane, and not a word of objection came from the police. Last night, however, Market square, where the meeting was to have been held, was filled with armed police, and placards were posted proclaiming the meeting.

This action of the authorities excited the most intense indignation among those in sympathy with the objects of the meeting, and a deputation of the Englishmen who were chiefly instrumental in organizing it called upon the magistrate to protest against this attack upon the right of free speech. They were told that the meeting had been proclaimed because it seemed certain that if it were permitted bloodshed would result, as the Orangemen proposed to organize a counter meeting only a stone's throw away in case the Home Rulers assembled.

Dungannon is divided into two hostile camps, the Catholics and the Orangemen taking every opportunity to hurl defiance at one another. Up to this time no more serious consequences are reported than a few broken heads, the results of isolated disturbances, but as feeling runs very high and the police are nearly all concentrated on the scene of the proclaimed meeting, news from that point is awaited with considerable anxiety.

A Welcome to Premier Crispi.

ROME, Sept. 20.—The city of Naples gave a right royal welcome yesterday to Premier Crispi on his arrival in that city to occupy his new villa on the shores of the Bay of Naples. A procession of 20,000 people escorted the premier's carriage to his villa, among the marchers being many senators, deputies, municipal officers and other dignitaries. Replying to the address of welcome and an address congratulating him upon his recovery from his recent illness, Signor Crispi spoke feelingly of his old love for Naples, the glorious city by the sea, and of their united efforts in 1848, successful by the aid of God, to obtain their liberties.

After the Nihilists.

ST. PETERSBURG, Sept. 20.—The police within the past few days show increased activity in different parts of Russia, in their pursuit of suspected Nihilists. The students everywhere are objects of suspicion, and twenty attending the university at Kiev were arrested yesterday.

Germany's New Naval Tactics.

BERLIN, Sept. 20.—The board of naval officers recently appointed by the German admiralty, to inquire into the subject of tactics, has made its report, and as a result it is announced that Germany is to substitute an entirely new system of naval tactics for that now in use.

Opera House Set on Fire Four Times.

LONDON, Sept. 20.—The Royal opera house at Ruda Pesth was last night set on fire by an incendiary. This is the fourth attempt of the kind within three weeks, but thus far the damage resulting has been trifling. No cause is assigned for the crime.

The Husband Made to Suffer.

BELGRADE, Sept. 20.—The Serbian government has decided to dismiss from his position in the diplomatic service M. Christich, whose wife so turned the head of King Milan that she induced him to abdicate after securing a divorce from Queen Natalie.

A Duke Dying.

ST. PETERSBURG, Sept. 20.—The Duke Constantine is dying. He has already lost the power of speech, and although still conscious and able to recognize those about him, is rapidly sinking.

A Million Spindles Idle.

LONDON, Sept. 20.—Eight cotton mills in Preston and fourteen in Blackburn have shut down, and as a result 30,000 looms and a million spindles are idle. The depression is spreading in all the cotton centers of Lancashire.

Gold Beaters Combine.

LONDON, Sept. 20.—The gold beaters of Nurnburg, Augsburg and Schwabach have formed a ring for the purpose of controlling prices, and the first fruits are already seen in a material advance.

VALUABLE INVESTMENT.

A Young Man suddenly Discovers That He Has Invested Wisely.

WASHINGTON, Sept. 20.—The Evening Capital publishes the story of the sudden acquisition of wealth by a young man named Enoch Fowler, formerly a resident of Georgetown. Ten years ago he went to Port Townsend, W. T., with his brother. The town then contained only 250 inhabitants. They did not prosper, so they returned to Georgetown and resumed charge of a green grocery store. Enoch was the owner of 500 acres of ground near Port Townsend, which he tried to sell for \$1, and

were before coming east, but without success.

Last April while still engaged in the grocery business, Enoch received an unexpected offer of \$100,000 for his land. He declined the offer, and going out to Port Townsend he found evidence of the magnificent and rapid growth, such as only western cities know. He laid out his 300 acres as a suburb, and he has sold one-half of it for \$100,000.

OVER AN EMBANKMENT.

Railroad Rails Spread, With Disastrous Result, Near Wichita, Kansas.

WICHITA, Kan., Sept. 20.—The east-bound St. Louis and San Francisco passenger train was derailed near Leon, Butler county, yesterday, by the spreading of the rails. Three passenger coaches left the track while the train was going thirty miles an hour, and rolled down a fifteen-foot embankment. The coaches were not well filled, and thus the loss of life was not so great as it otherwise would have been.

R. M. Beemis was instantly killed, being thrown through the roof of the car. Isaac Dean, of this city, was fatally injured, having his breast crushed in by a car timber. Mrs. Matzka, also of this city, was fatally crushed by the weight of a car. Mrs. John Mitchell, of Fort Smith, Ark., had one arm and one leg broken, and may die. R. I. Lathrop, of Kansas City, had his right leg broken in two places, and received internal injuries. About ten more were slightly injured.

The amount already subscribed as a guarantee fund for the Chicago world's fair is over \$5,000,000.

John Lister, Jr., the son of a Chicago millionaire, has been convicted, at Duluth, Minn., of grand larceny.

Chauncey M. Depew has been chosen chairman of the legislative committee of the New York world's fair.

Considerable damage, but no loss of life, resulted from the bursting of a large dam at Springfield, Pa.

The Cincinnati, Washington and Baltimore railroad has been sold to Edward R. Bacon and associates for \$5,000,000.

President Ingalls, of the Big Four, is in New York. He says that the purchase of the O. & W. railroad is only a question of time.

A cable at Kansas City, Mo., was stopped by the sheriff, who replevined the company's power engine, at the instance of a Hamilton, O., firm.

Henry F. Schmidt, Jr., of Cincinnati, the defaulting ex-treasurer of the Jewel building association, who skipped out several weeks ago, has been captured.

Mrs. Robert Ray Hamilton, on trial at Mrs. Manning's, N. J., for stabbing her child's nurse, Mary Donnelly, was convicted and sentenced to two years in the penitentiary.

Confessed to a Bribe.

RANDOLPH, N. Y., Sept. 20.—Lester Bryant and Andrew Vidal, sons of prominent farmers, were arrested yesterday for the robbery of \$1,000 in greenbacks, from the residence of Mrs. Freeman, at Naples, on Saturday evening. Vidal confessed and told where the money was secreted. Over \$500 was recovered. The men were committed for trial.

Army of the Cumberland.

CHATTANOOGA, Tenn., Sept. 20.—Gen. Rosecrans was re-elected president of the society of the Army of the Cumberland this morning. Toledo, O., will be the next place of meeting, and Sept. 17 to 18 the time. The question of monuments to Garfield, Thomas and Sheridan was considered. The Confederate veterans were thanked for courtesies.

Victims of the Leo Disaster.

CLEVELAND, O., Sept. 20.—The body of S. E. Knight, another of the passengers of the yacht Leo, which left Lorain for Cleveland Sunday afternoon, and which was wrecked by the explosion of her boiler, was washed ashore about noon yesterday. Four bodies have now been recovered. Five are still missing.

Wrecked Vessel Safely Landed.

BOSTON, Sept. 20.—The derelict Norwegian bark Eliza Lines, and the New York pilot boat Edward Barrett, arrived here yesterday. The pilot boat picked up the wrecked vessel off Nantucket, and they were taken in tow by the tug Underwriter, which afterward transferred to the tug Confidence.

Spinning Troubles.

FALL RIVER, Sept. 20.—The striking spinners of the Tecumseh mill have returned to work. Those of the Troy mill remained out. Agent Borlen says nothing can be done while damp weather continues, as the dampness makes the work run bad anyway. It is expected that if the cold wave continues the principal cause of the present troubles will be removed.

The Scheme a Failure.

OTTAWA, Ont., Sept. 20.—The commission sent by the government to England and Scotland, in connection with the project of colonizing a part of British Columbia with crofters, reports the scheme a failure. The British government, from which assistance was expected, will have nothing to do with it.

Lucky to Get Off so Easy.

NEW YORK, Sept. 20.—Isaac Dreyfuss, the eccentric Pittsburgh cattle dealer, was found last night by a policeman in South Fifth avenue, unable to take care of himself. He was taken to the station house, whereupon being searched, \$7,500 in bonds and \$55 in cash was found upon him. This morning he was fined \$10 in the Jefferson Market police court.
